SKILLS

HTML5, CSS3, Tailwind, JavaScript, Php, jQuery, Ajax, React, RESTful APIs, Redux, Framer Motion, Responsive Design, NodeJS, ExpressJS, MongoDB, MYSQL, Version Control: Git, GitHub

EXPERIENCE

CodeAlpha – Frontend Developer

August 2025 – October 2025

- Worked on 5+ front-end development tasks using HTML, CSS, and JavaScript.
- Designed and built responsive web pages with clean layouts and interactive elements.
- Improved user interface design and overall visual appeal of assigned projects.

PROJECTS

EstateLink - Full-Stack Real Estate Platform

- Developed a responsive real-estate platform using React.js, Node.js, Express.js, MongoDB, and Prisma.
- Implemented user authentication (login/logout), property listings, search & filtering, and API integration.
- Built real-time chat functionality using Socket.IO for communication between users and property owners.

E-Commerce - Responsive Online Store

- Developed an e-commerce web application frontend using HTML, CSS, JavaScript, and React.
- Implemented global state management using React Context API.
- Built cart system with order tracking functionality and login/logout flow.
- Designed a fully responsive user interface for a smooth experience across all devices.

PIXIFY - Media Search App ([Live](#))

- Built Pixify, a media search web app to explore photos, videos, and GIFs using Unsplash, Pexels, and Giphy APIs.
- Implemented Redux Toolkit for state management and a localStorage-based collection feature to save

Personal Portfolio ([Portfolio](#))

- Built a personal portfolio website using HTML, CSS, JavaScript, and React.
- Showcased projects, skills, and experience in a clean layout
