ansari.sayem.20@gmail.com [LinkedIn](#) [Github](#)

PROFILE

A passionate and self-motivated B.Sc. IT graduate with a strong interest in Front-End Development. Creates user-friendly and responsive websites and actively learns new technologies to contribute to real-world projects with dedication and teamwork.

SKILLS

HTML5, CSS3, Tailwind, JavaScript, React, RESTful APIs, Redux, Framer Motion, Responsive Design, Version Control: Git, GitHub

EXPERIENCE

CodeAlpha - August 2025 (Remote Internship)

- Worked on 5+ front-end development tasks using HTML, CSS, and JavaScript.
- Designed and built responsive web pages with clean layouts and interactive elements.
- Improved user interface design and overall visual appeal of assigned projects.

PROJECTS

EstateLink - Full-Stack Real Estate Platform

Role: Frontend Developer

- Developed the complete frontend UI using React.js with a fully responsive design for all devices.
- Implemented property listing pages, search & filter functionality, and user-friendly navigation.
- Integrated frontend with backend APIs for authentication, property data, and real-time features.
- Designed and connected real-time chat UI using Socket.IO for instant user communication.
- Collaborated with backend development using MERN stack + Prisma, focusing primarily on frontend responsibilities.

E-Commerce - Responsive Online Store

- Developed an e-commerce web application frontend using HTML, CSS, JavaScript, and React.
- Implemented global state management using React Context API.
- Built cart system with order tracking functionality and login/logout flow.
- Designed a fully responsive user interface for a smooth experience across all devices.

Personal Portfolio (Portfolio)

- Created a personal portfolio website using HTML, CSS, JavaScript, and React.
- Implemented modern UI with Tailwind CSS and added smooth animations.
- Showcased projects, skills, and experience in a clean layout
- Built a fully responsive design for optimal viewing on all devices with fully functional Contact Section with Email.js.
